A company cared by everyone!

A COMPANY CARED BY EVERYONE!

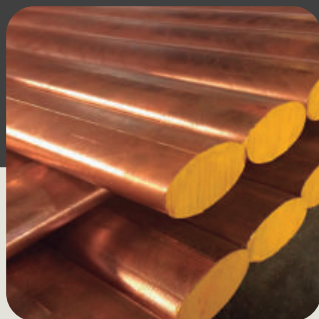

TRATHO is a reference in quality in the import, production, and distribution of chemical raw materials, with a wide structure, leader in the smelting of non-ferrous metals, with excellence in delivery times, quality, and competitive costs.

Its technical and commercial structure is supported by laboratories, strict product quality control, and pure metal alloys for application per international standards SAE, DIN 1743, UNI, ABNT, ASTM, and B.S., among others.

It does direct importing and is an authorized distributor of recognized brands, with assured quality, permanent regulatory stocks, certificates of analysis, and retention samples tracked by production batches.

It is headquartered in Arujá/SP and has five other branches in the cities of Caxias do Sul/RS, Joinville/SC, Fazenda Rio Grande/PR, Contagem/MG and Nova Friburgo/RJ. It operates with logistics warehouses, its own fleet, internal production, technical assistance, and a post-sales team.

Contact TRATHO and be amazed by its quality and cost-effective solutions for your business!

SEGMENTS SERVED

Currently, TRATHO is structured to serve the markets of seven main segments.

AGRIBUSINESS

Inputs with direct impact on productivity, cost-effectiveness, and quality to serve one of the most important sectors of the national economy.

INGREDIENTS

Ingredients of the highest quality for the segments of Food, Pharmaceutical, Animal Nutrition, Clinical Nutrition, Human Nutrition and related areas.

FOUNDRY

In-house foundry, direct import, rigorous quality control of the purity of metals, alloys and anodes, under international specifications.

INDUSTRIAL CHEMISTRY

Products for quality and performance in the chemical production of rubber, textiles, polyurethane, water treatment, ceramics and others.

ELECTROPLATING

Solutions for the copper, chromium, tin, brass, nickel, and zinc segments. Production in own foundry, import and distribution of the best origins.

PAINTS

Quality for manufacturers of paints, resins, and additives, resulting in improved durability, coverage, and finish of products.

HPC

Raw materials from the best manufacturers, of the highest quality, for personal care products, perfumery, cosmetics, and sanitary products.

OTHER APPLICATIONS

TRATHO's diverse portfolio also includes raw materials suitable for applications in other sectors, particularly in the industrial chemicals industry. Therefore, regardless of your industry, contact TRATHO's technical and sales support, which is staffed by professionals ready to address specific customer needs and market demands with excellent value for money and competitive delivery times.

RAW MATERIALS PORTFOLIO

A varied line of chemicals and metals, produced internally, with direct importing and distribution from large national and international producers. TRATHO serves several industries with assured quality, regulatory stocks, certificates of analysis, and retention samples tracked by production batches.
